

The Perceptual Revolution

Part 4

so let's see what they look like

let's see what they wear

we've read something of their minds

now let's see themselves

Billy wears clothes made for him by one of his women.

He's married to June Julia Jones but he also lives with a group of six or seven other women who provide for him. One is rich and gives them a home, another designs what he wears and sees to his material needs, others shop and serve him his life food, and others do all sorts of things for him. He is very attractive and they all love him and each other quite happily

Roundup on the other hand is not married but is looking for the perfect partner to share his life and wealth with. Made rich by his entrepreneurial skills of spearheading companies around the world he seeks love and companionship. He wears the finest suits and

smells of the finest toilet waters wearing coloured shirts and shoes of ineffable style

Billy doesn't always wear something on his feet but he likes plimsolls and sandals and boots. His trousers are of patches and his tops are loose and colourful with designs hand painted by one of his partner women. He likes cowboy hats and soft leather caps that set off his glittering eyes and thick lips

It is Lady Wilhelmina Ponsonby-Smythe who provides one of his main homes at her house Boughton House in Worthshire.

They all of them are rich and free to live as they like

too rich too free

until the day Roundup moves and abducts Billy Gilded

It happens one day when Billy is driving his landrover monster around the estates and a limousine pulls up alongside and the door opens as Roundup leans out to invite Billy in to go to lunch with him. Billy accepts and enters the car. They are whisked away home to Roundup's lair, a remote farmhouse buried inside a guarded park of forestry.

I never call people by their names

it's so misleading

declares Billy Gilded to his

captor Harry Roundup

no matter you aren't going to be seeing anyone for a while I have brought you here to be my prisoner says Roundup

I don't know you but I have heard of you from Freddie Lawrenns

Yes he and I were at school together

He says you were always a strange foolish twerp who could not help himself nor control himself. It doesn't matter to me that I am your captive because you have not captured me I have captured you that is why I entered the car. I know what you do and know what you are which is more than you do yourself

Stop this Billy how can you have captured me how could you know a frustrated Harry Roundup reacts

Don't' worry about it but first I would like to know why you have done that and what you intend although the latter I think I know

I was told to do it. Link came to see me he came from one you know nothing about

Maybe but I can imagine

Go on what did Link say

He told me to invite you to lunch and to detain you till I
have converted you

Yes I was expecting that word but as you see I have
reversed things and it is I will convert you

Nonsense never

The two men become silent in the dining room the table
showing their meal to be finished

They wait in stillness

The Devil leapt out
of the mirror and
told me he was
Death
to come his way is to
die fast in pain and
suffering he the Devil
likes that and leads
you to an end and
He was horrible
and terrible
laughing and leering
He upset me
and I fled
I had gone to Him
because I was bored
and had nothing to do

now all that's changed

I live to defeat Him

to give out goodness

and light

to fill the world with love

and kindness

I Heldis Jones have experienced these things

what is this I hear Meriel

that Billy Gilded Creator

has disappeared

where is my son in law

no-one knows it is a mystery

he has been gone several days now

June Julia is worried

maybe he has got drunk
and died
with the Devil

not like him I would think
he is such a mellow thoughtful
guy
doesn't worry himself into
drunkenness

everyone is concerned for Billy and many people discuss the
possibilities amongst themselves

Mr Chin Ken has expressed interest in setting up a search party
looking into likely places Billy might be

On the war

it would seem the hippies have lost
and the men in suits have won
they have their war
and the hippies lose their peace

Peace 77

years is ended

war starts

declares Heldis Jones in his writings

but Peace 77 has shown

people want to live

love and laugh not war

Billy Gilded awoke in bed felt for his

partner of the night

but the partner had gone

later the partner

Roundup slid under the duvet

with Billy

that was absolutely incredible

wonderful what have I

been doing all my life

you've been believing

what you've been told

to believe now you

live liberated yourself

it's just marvellous

no problem

exactly quite says Billy Gilded

Roundup asks what shall we do now

care for each other

you'll never leave me

no why should I

make peace

and love each other

look after our women

and children

and the aged

and sick

let's live

and die happy concludes Billy

Corporatus is talking with his associate Link

Link has Roundup captured

Gilded Creator

Link replies

he has sir

good

shall he do away with him

oh no that is not what I intend

Link looks puzzled but knows not to ask

Little Ed Victry rushes in to the mind of Georgian Merchant
declaring

Georgian Georgian I've found it
and know where to look

Georgian asks

what are you talking about

Little Ed the young artist explains

the museum culture I know

how to cure it

how to move on

I will give up everything

I will devote myself to it

to what

to creating the new identity

the new culture art literature

music philosophy

one to initiate flourish

the age of caring and sharing
