

## The Perceptual Revolution

### Part 5

are you sure you

know how to fly

that thing

                    this thing

is a lady a woman

an angel of flight that

frees me from the world

and is about to take

me to Scotland to

Castle Breaking she

Ellie is my fashion of

travel and you may join

me if you wish

                    do you

                    want me to

of course I do

Susan White is talking with Ken Chin her new husband and they are discussing their pursuit of Roundup in an attempt to rescue Billy Gilded Creator

Mr Chin in discussion with Reverend Freddie Lawrenns has learned that Freddie believes Roundup has moved his prisoner from the Forest Lair to his remote castle north of the border Castle Breaking that is

Heldis has informed the Chins of Castle Making where Perry and Elaine live They can help the Chinaman

Perry was engaged to June Julia in the brief tale "There is Another World Elsewhere"

Ken picks up his mobile phone in his room

it is early evening

just ringing to see

if you've arrived there

safely

Freddie's voice

on the other end

declares

thank you Freddie

we're here at the hotel

I shall make my call on

Roundup in the morning

wish me luck

certainly

and more besides some

courage faith and love

the next day Mr Chin Ken has flown

Ellie into the grounds of

Castle Breaking

he has left Susan at the hotel

the castle is isolated

cast high in the mountains

spectacular views and privacy

helicopter is one of the best

ways to access

round the castle are vast gardens

and playing fields and open spaces

so Ken lands easily

he walks to the building

unimpeded

he carries a large red bag

he approaches the massive

wooden doorway

bangs on it and

waits

nothing at all happens

until around the corner of the

edifice to his right

creeps quietly slowly

a tall figure in black

and wearing a large black

mackintosh

he approaches the startled

Chinaman

asking

Yes can I help you

Ken has his opening speech prepared

Good morning

such a beautiful sight

seen from the air

hiya thought I'd drop  
in for a glass of sherry

what

the man who is Roundup asks

such a wonderful place  
so full of beauty  
romance just the  
place for a sherry

are you mad

no I just want to  
give my life for you

what are you talking about

offer me that glass of sherry

and you'll know

perceptions and dismantle the  
foundations of society  
is it for himself  
but no do you know  
what he said

I don't do it  
to soothe the  
strife and conflict  
I do it to  
create the  
caring and sharing

well I ask you  
it does not make any sense  
he is quite crazy with  
his ideas  
I shall let him recover himself here  
and release him when he is cured  
I told him

so you think we're going to  
let you change the world  
abolish money do you  
think we'll give up our  
power our wealth so  
you can give people  
freedom you're ridiculous  
you're nothing  
as nothing I'll destroy you

Mr Chin

I will not let you

Roundup

you've had your sherry  
now leave

much later

Ken flies around the Castle Breaking  
and spots a turret he thinks is  
likely where Billy Gilded Creator is captive  
he hovers Billy notices and opens  
the window to wave out to Ken  
he holds up a placard with the initials  
B G C written large on it Ken nods  
his helicopter

later again

Billy Gilded can climb onto the roof of  
the tower Ken hovers and lowers a  
rope to haul Billy Gilded up inside  
the machine they fly to safety in  
the town

Roundup has been escorted by Link to the presence of Corporatus  
he is very contrite and down and saddened

Billy Gilded Creator has escaped I am sorry to say

Corporatus puts his hand on Roundup's shoulder

I know it is all right

I let him escape continues Roundup

I know that too tell me about it surprises Corporatus

I failed declares Roundup

I failed to convert him to my ways

he converted me to his

I am sorry to have let you down

I wanted to bring him to you

but I failed I lost

I capitulated to him

I no longer wish to compete

to dominate with money and

control the world

I know this is a terrible shock to you

you relied on me to silence the rebel and to put an

end to his subversion but

I couldn't he is very persuasive and

led me astray through his progressive

perception oh his perceptions

his perceptual reversal was the

final blow

the end of my life

as it was

Corporatus interrupts Roundup's flow

do not distress yourself

it can all change

besides it is what

I planned for it is

what I intended

you see the progress of Billy

Gilded and his ideals and ways

are inevitable if not in our lifetime

they will come to reality and I

prepare and accept them

you now can be part of their future

you too Corporatus

puts in Roundup

thank you I am too old

but you have time

tell me how did he succeed

love and peace were his ways

his tempters

he taught me to love and play

laugh and enjoy and create

he is the most remarkable man  
I have ever met after you that is  
Corporatus you have greatness too  
though Billy is so warm and sure  
of himself

Roundup I wonder

Corporatus adds

he has need of you more  
than you realise  
take care and do well  
I am old and departing  
you the young are just starting  
all my love to you all  
all ways

Corporatus leaves Roundup to think on these things  
and discover the new question

what am I Roundup going to do now
